WELCOME TO GOOGLE SLIDES!

WHAT IS GOOGLE SLIDES?

It is a web based presentation application and was developed by Google. It allows users to create, edit, design, and present slide presentations. It is part of Google Workspace, together with Google Docs, Google Sheets, and other productivity tools. It can be accessed through a web browser and is also available as a mobile application.

PURPOSE

It can be used for:

- *School reports and presentations*
- *Business presentations*
- *Seminars and meetings*
- *Project proposals*
- *Educational lessons*
- *Group presentations*
- *Online presentation*

FEATURES

- *Online Presentation Tool*
- *Templates and Themes*
- *Real-Time Collaboration*
- *Easy Sharing*
- *Multimedia Support*
- *Animations and Transitions*
- *Cloud Storage*
- *Offline Access*
- *Import and Export*
- *Presenter Tools*
- *Comments and Suggestions*
- *Cross-Device Access*
- *Integration with Google Workspace*

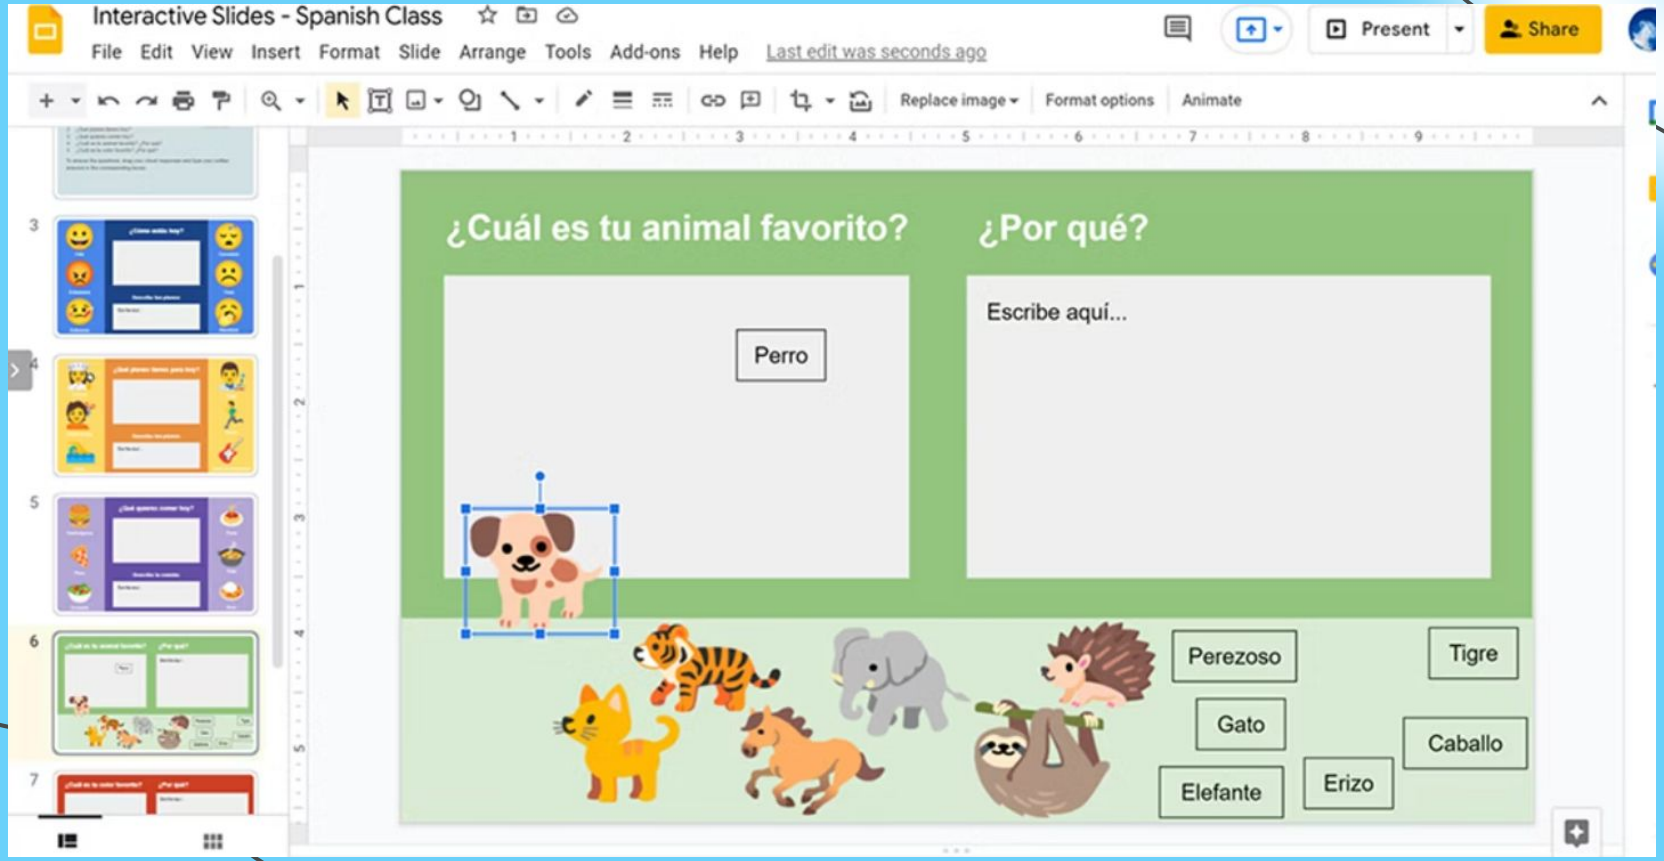

PRACTICAL USES

- **Google Slides is not just limited to “*presentations*”.**

  Its combination of design tools, multimedia, hyperlinks, and real-time collaboration makes it useful for education, organization, communication, and interactive activities.

What are some creative ways in which Google Slides can be used?

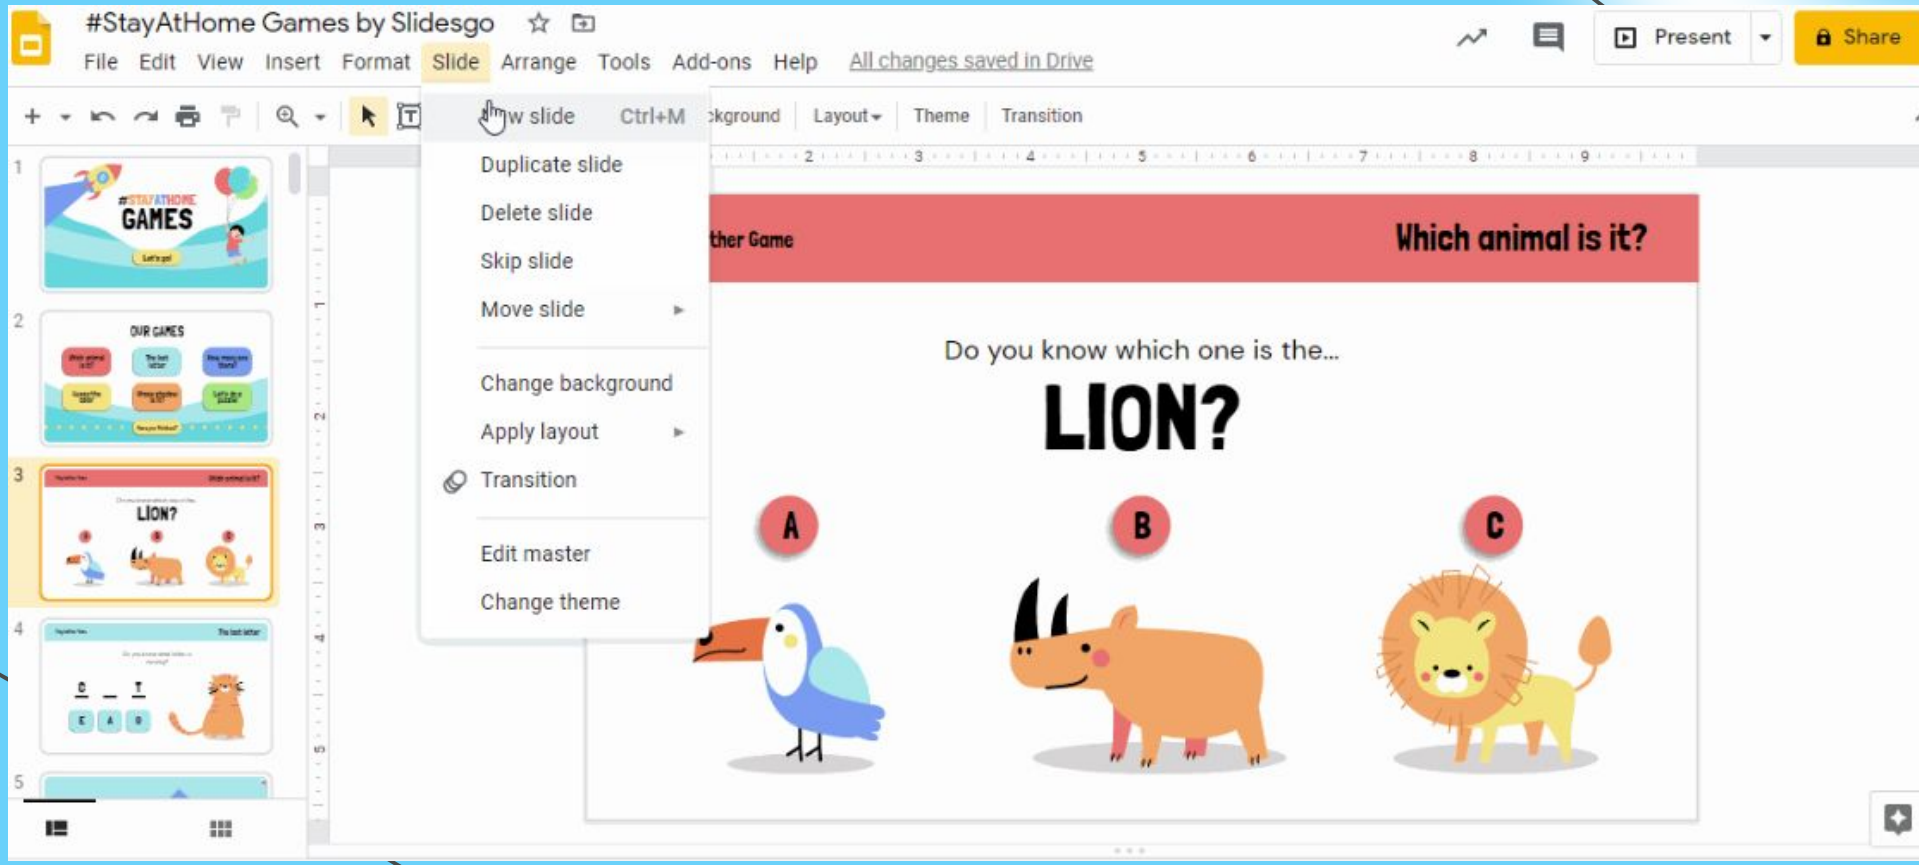

INTERACTIVE LEARNING MODULES

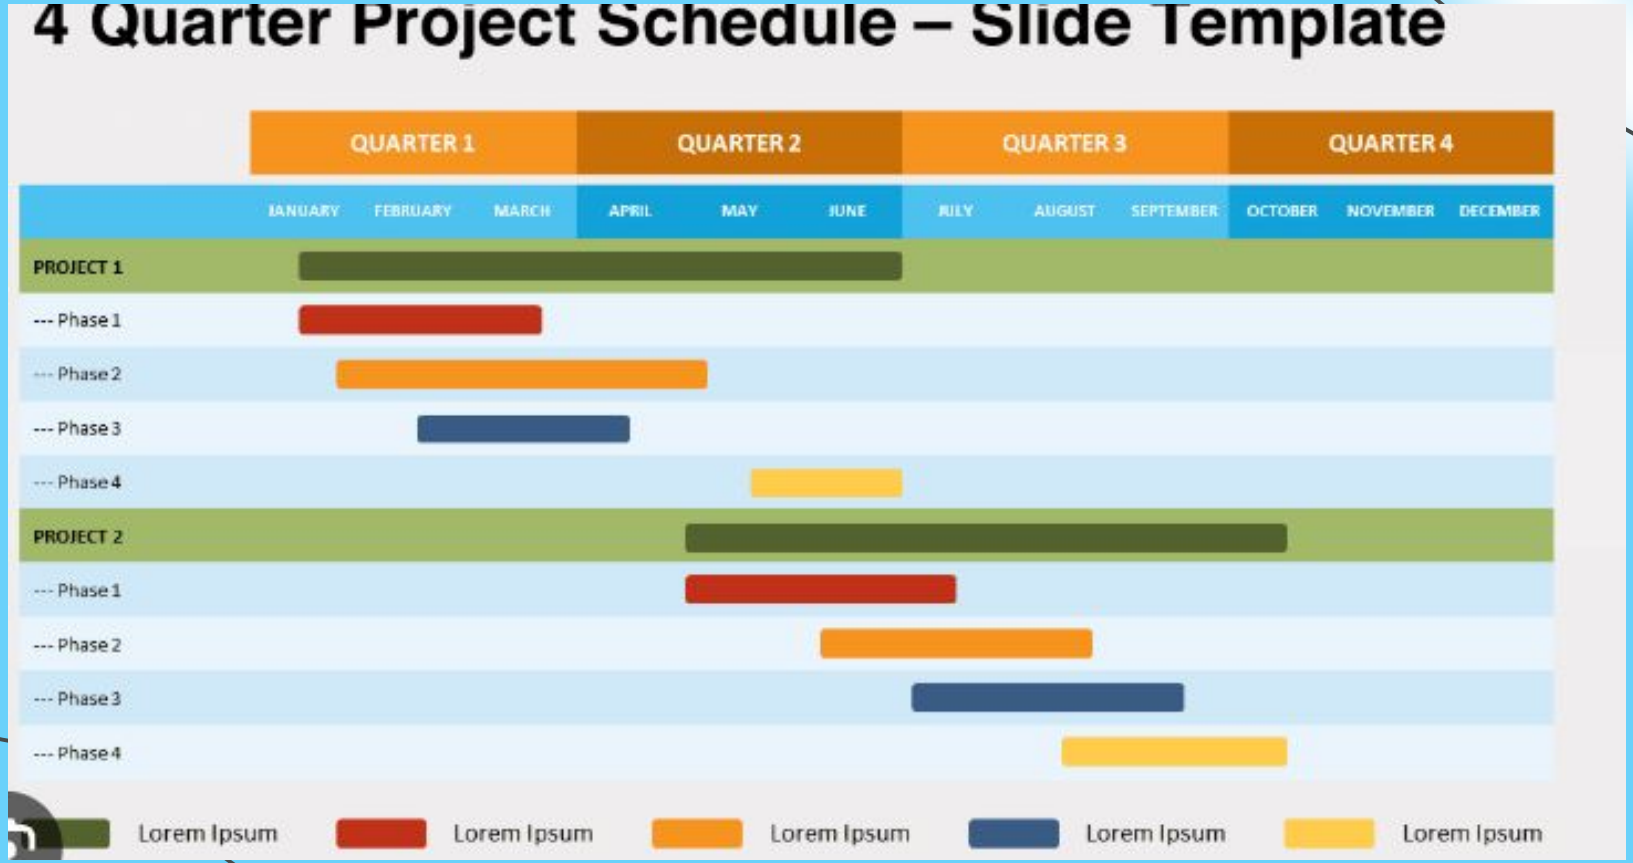

DIGITAL POSTER/INFOGRAPHIC

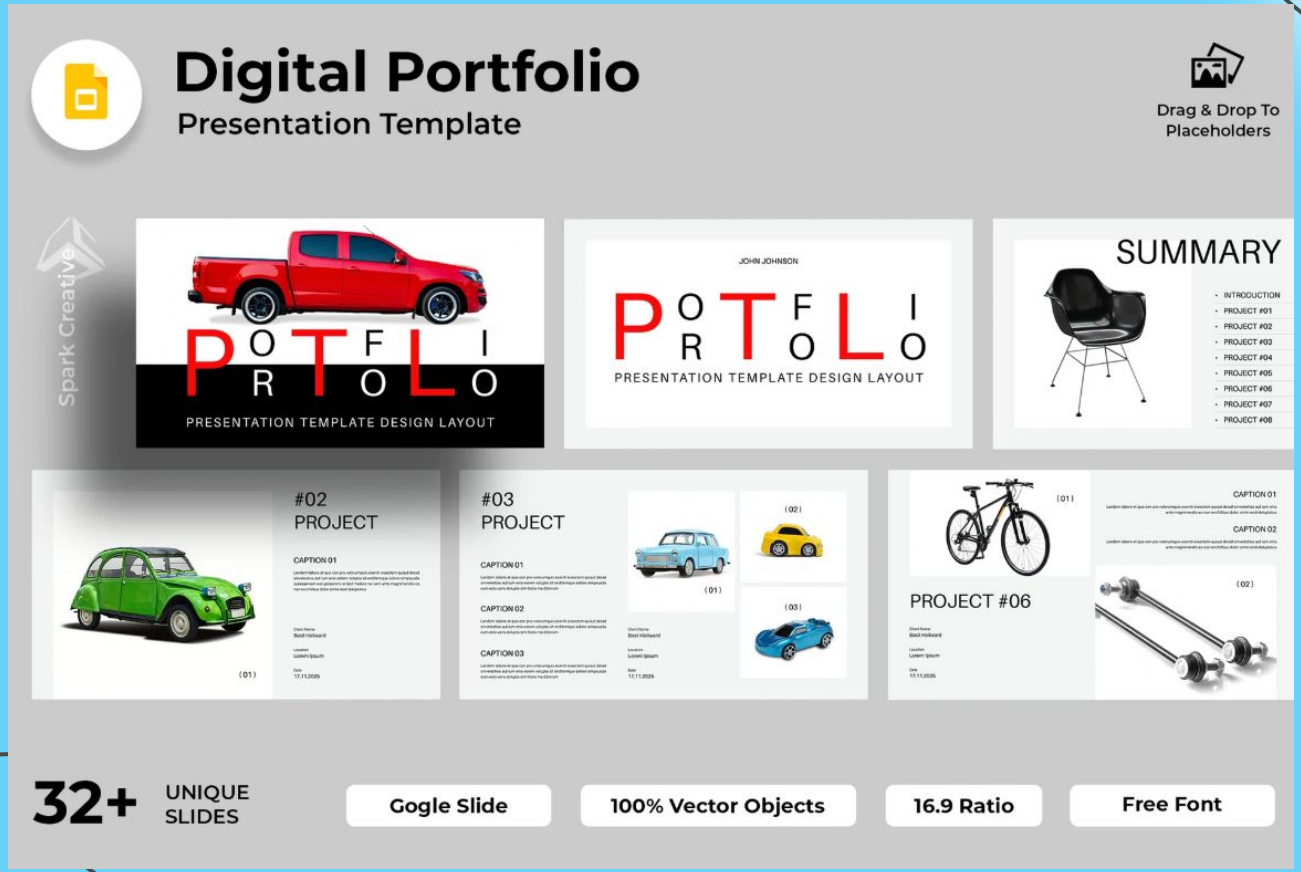

ONLINE QUIZZES / GAMES

PROJECT PLANNING

DIGITAL PORTFOLIO SHOWCASE

20

1. What is Google Slides?

A. A spreadsheet application

B. A web-based presentation application developed by Google

C. A video editing software

D. A programming tool

20

2. Google Slides is part of which group of productivity tools?

A. Microsoft Office

B. Adobe Creative Suite

C. Google Workspace

D. Google Play Store

20

3. What is the main purpose of Google Slides?

A. To store photos only

B. To organize and present information visually through slides

C. To create computer programs

D. To edit music files

20

4. Which of the following is NOT a common use of Google Slides?

A. School reports

B. Business presentations

C. Project proposals

D. Repairing computer hardware

20

5. What feature allows multiple users to work on the same presentation at the same time?

A. Offline Access

B. Real-Time Collaboration

C. Animation

D. Presenter View

20

6. Where are Google Slides presentations automatically saved?

A. Google Drive

B. Google Photos

C. YouTube

D. Gmail

20

7. Which feature allows users to add pictures, videos, audio, and charts?

A. Multimedia Support

B. Cloud Storage

C. Theme Selection

D. Offline Mode

20

8. What allows users to share presentations using a link with different permission levels?

A. Easy Sharing

B. Animation

C. Import and Export

D. Slide Layout

20

9. Which feature adds effects between slides?

A. Comments

B. Transitions

C. Templates

D. Notes

20

10. Google Slides can be accessed using computers, tablets, and smartphones. This feature is called:

A. Cross-Device Access

B. Cloud Storage

C. Slide Design

D. Presenter Tools

20

11. Which feature allows users to leave feedback or suggestions on a presentation?

A. Comments and Suggestions

B. Themes and Templates

C. Animations

D. Offline Access

20

12. Google Slides can import PowerPoint files and download presentations as PDF. This feature is called:

A. Collaboration

B. Import and Export

C. Multimedia Support

D. Presenter Tools

20

13. Which tool helps presenters view speaker notes while presenting?

A. Presenter Tools

B. Google Drive

C. Themes

D. Templates

20

14. Why is Google Slides useful for group projects?

A. It prevents users from editing files

B. It requires everyone to create separate copies

C. It allows people to collaborate online

D. It only works on one device

20

15. Compared to Google Docs, Google Slides is better for:

A. Writing long essays

B. Organizing information visually

C. Creating spreadsheets

D. Managing numerical data

20

Write **TRUE** if the statement is correct and **FALSE** if it is incorrect.

16. Google Slides can only be used when connected to the internet.

17. Google Slides can be used to create digital posters and infographics.

Google Slides

18. Google Slides can be used to create interactive quizzes and games using hyperlinks.

19. Google Slides is only useful for classroom presentations and cannot be used for businesses.
